Community Fire Safe Councils are formed by volunteer residents to promote wildfire safety within a defined geographical area or neighborhood. Projects and activities of the councils are all conducted according to the objectives of the California Fire Plan and follow the general guidelines as shown below. Councils work in collaboration with federal, State and local agencies, and the Fire Safe Council of San Diego County to reduce the threat of wildfire to area residents.

The _____ Fire Safe Council has established a group of community volunteers who acknowledge our community's wildfire hazards and recognize the value of providing community education for defensible space to help protect our homes and properties from wildfires.
